## 04 October 2005 - Apache Beehive 1.0 Released

[The Apache Beehive Project](#) is pleased to announce the v1.0 release of Apache Beehive.

This release provides the following major features:

- NetUI (Page Flow + JSP tag library)
- Controls framework
- System controls for accessing JDBC, JMS, and EJB resources
- Many bug fixes
- Significantly enhanced documentation
- Additional samples

Binary and source distributions can be downloaded via an Apache mirror from:

<http://beehive.apache.org/releases/release-1.0.cgi>

Documentation for v1.0 is here:

<http://beehive.apache.org/docs/1.0>

A few notes about this release:

- WSM and the web service control are not included as WSM has not passed the JSR 181 TCK yet. Both will be available in a subsequent release.
- v1.0 does not include [XMLBeans](#) due to licensing issues with the JSR 173 API JAR; however, [XMLBeans](#) can still be used with Beehive and is available from <http://xmlbeans.apache.org/>
- Changes in v1.0 from v1.0m1 can be found here: <http://issues.apache.org/jira/secure/IssueNavigator.jspx?reset=true&pid=10570&fixfor=12310123>

- Thanks to everyone who submitted bug reports, patches, testing, and feedback. All of these contributed significantly to this release.
- Please send comments / questions about this release to [user@beehive.apache.org](mailto:user@beehive.apache.org) and development-related issues to [dev@beehive.apache.org](mailto:dev@beehive.apache.org)
- Bugs found in 1.0 should be filed in JIRA at <http://issues.apache.org/jira/browse/BEEHIVE>
- This version was built at SVN change 291405.

We welcome your feedback!
